## QA Automation Engineer

---

Web, API, Mobile & Desktop | Test Automation (Selenium, Playwright, Appium) | CI/CD Integration & Quality Engineering

---

## Skills

---

**Test Automation & Frameworks:** Selenium, Playwright, Appium, WinAppDriver, NUnit, TestNG, SpecFlow (BDD)

**Programming & Scripting:** C#, Java, JavaScript/TypeScript, Python (basic), SQL

**API & Backend Testing:** REST API testing (Postman, REST Assured), microservices validation, API verification

**CI/CD & Version Control:** Azure DevOps, Jenkins, GitHub Actions, GitLab CI, Git

**Testing & QA:** Functional, Regression, Smoke, Integration, End-to-End, Risk-based testing, Test strategy

**Web & Desktop:** Web applications, Desktop applications, SaaS platforms

**Tools & Technologies:** SSMS, Maven, NuGet, Docker (basic), Kubernetes (basic)

**Languages:** Dutch (B1), English (fluent), Russian (native), Hebrew (fluent)

**GitHub:** [github.com/alenska134](https://github.com/alenska134)

## Profile

---

Senior QA Automation Engineer with 7+ years of experience in test automation for web, API, mobile, and desktop applications across SaaS, public sector, healthcare, and industrial domains.

Design and implementation of test automation frameworks using C#, Java, and JavaScript. Experience with Selenium, Playwright, Appium, and WinAppDriver.

Integration of automated tests into CI/CD pipelines using Azure DevOps, with focus on improving test coverage, reducing execution time, and increasing release stability.

Experience in API testing, microservices validation, and SQL-based verification within Agile development environments. Focus on maintainable automation solutions and improving QA processes through test automation.

## Experience

---

### Freelancer – Educational Tools Creator

#### Expat Language Labs, Netherlands — 2024–Present

- Developed and deployed a JavaScript-based educational web application with interactive language-learning gameplay
- Built and maintained a Playwright end-to-end automation framework, improving test coverage and reducing manual QA effort
- Collaborated with stakeholders to enhance usability, product quality, and user experience
- Live Application: [Dutch-English Phrase Game](#)
- Automation Framework Demo: [Dutch-English-Game-Automation](#)

### QA Automation Developer & Team Lead

#### MES LTD, Israel — 2023–2024

- Increased test coverage by 62% and reduced test execution time by 30%
- Led CI/CD integration using Azure DevOps
- Defined and improved QA processes and internal documentation
- Coordinated automation efforts and supported team members

### QA Automation Engineer

#### MES LTD, Israel — 2021–2023

- Built and maintained automation frameworks using C# and Java
- Automated regression testing and improved release cycles
- Performed API testing and SQL-based validation

## **QA Engineer – Manual & Automation**

### **MES LTD, Israel — 2017–2021**

- Performed manual and automated testing for desktop and web applications
- Achieved 98% defect detection rate in critical medical applications
- Reduced regression testing time by 50%

## **Research Associate & Lab Manager**

### **Technion – Israel Institute of Technology — 2010–2017**

- Designed experimental protocols and validated scientific results
- Managed laboratory operations and research processes

## **Education & Certifications**

---

- M.Sc. Biology & Medical Science – Technion
- Certification in Automation – Computer College
- Managing App Development – Quantic (2025)
- Playwright Automation (2024)
- Appium & WinAppDriver (2022)
