ELENA OVCHARENKO

Senior QA Automation Engineer | Playwright · API Testing · CI/CD

Amstelveen, Netherlands | alenka134@gmail.com | +31 685574308

GitHub | Tech Blog | LinkedIn

QA Automation Engineer with 7+ years of experience testing medical, desktop, web and mobile applications. Skilled in designing automation frameworks, API and integration testing, and integrating quality checks into CI/CD. Hands-on with Playwright, Selenium, C#, Java, Python and JavaScript/TypeScript. Experienced in QA leadership, cross-functional collaboration and AI-assisted software development.

CORE SKILLS

Automation: Playwright, Selenium WebDriver, NUnit, TestNG, Appium, WinAppDriver; E2E, regression and cross-browser testing

API & Data: REST API testing, Postman, REST Assured, Python pytest/requests, integration testing, SQL validation

Programming: C#, Java, Python, JavaScript/TypeScript, SQL; Next.js and Tailwind CSS

Delivery: Azure DevOps, Azure Pipelines, GitHub Actions, Git, Jenkins, YAML, basic Docker

QA Practices: Risk-based testing, test strategy, exploratory testing, test documentation, defect investigation

AI-assisted tools: Claude Code, Cursor, GitHub Copilot, ChatGPT; code review, debugging and coverage analysis

PROFESSIONAL EXPERIENCE

Founder & Product Builder | AI-Assisted Development & QA — Elena’s Cat Care | Aug 2026–Present

- Designed, built, tested and launched a multilingual production website using Next.js, TypeScript and Tailwind CSS.
- Owned requirements, implementation, validation, deployment and iteration; tested booking workflows, pricing rules, discounts and input validation.
- Reviewed AI-assisted code, investigated edge cases and maintained the project through Git/GitHub and production deployment.

Freelance Developer & QA Automation Engineer — Expat Language Labs | 2024–Present

- Built a JavaScript educational web application and a Playwright end-to-end test framework.
- Automated UI coverage across Chromium, Firefox and WebKit, and API checks with Python, pytest and requests.
- Integrated automated tests into GitHub Actions; investigated defects and expanded scenario coverage.

QA Automation Developer & Team Lead — MES LTD, Israel | 2023–2024

- Improved automated test coverage by 62% and reduced execution time by 30% through framework improvements.
- Integrated automation into Azure DevOps CI/CD and mentored QA colleagues.

QA Automation Engineer — MES LTD, Israel | 2021–2023

- Designed and maintained C# and Java test frameworks for Windows applications; automated regression testing.
- Performed API and integration validation and SQL-based data verification.

QA Engineer, Manual & Automation — MES LTD, Israel | 2017–2021

- Performed functional, regression, integration and exploratory testing of medical applications.
- Reduced regression testing time by 50% through automation and process improvements.

Research Associate & Lab Manager — Technion, Israel | 2010–2017

- Developed research protocols and validated experiments, applying rigorous documentation and quality controls.

SELECTED PROJECTS

Elena's Cat Care — Production multilingual booking website; Next.js, TypeScript, AI-assisted engineering and QA. Live site | Source code

Expat Language Labs — Interactive language game with cross-browser Playwright tests, Python API tests and GitHub Actions CI. Live app | QA automation

Django Tech Blog — Python/Django portfolio and technical articles. Live blog | Source code

EDUCATION & PROFESSIONAL DEVELOPMENT

M.Sc. Biology & Medical Science — Technion, Israel

Automation Certification — Computer College, Israel

AI-Assisted Software Engineering with Claude Code (101) — Anthropic, 2026

Managing App Development — Quantic, 2025; Playwright E2E Automation, 2024; Appium & WinAppDriver, 2022
